to Lucy, Alaw

Hi all,

I hope you are all having a lovely summer and that your green spaces are growing well in

all this sun and rain

A few quick things –

1. We once again need to bid to Welsh Government for a little bit of funding to help us run the Green Flag Awards and allow the Community Awards to still be free to apply for. So I am after a little bit of your help if that's ok. As part of our bid I like to add some quotes from groups who have the award saying why the award is important for them/how it helps the group/what they get from it etc. So if you could email be back by mid Sept with just 2 or 3 lines at the most, your name and the site name that would be great.
2. Secondly - An email from my colleague at Grow Wild with some advice and free seeds!

Bring colour to your life in 2020! Help our bees and other pollinators.

Find out how to grow wildflowers with our free Autumn sowing advice for flowers next year. You might also receive free wildflower seeds in the post in early October...

Be one of 50,000 people that Grow Wild will help grow and enjoy UK native wildflowers in containers and small urban spaces. No growing experience required!

Partnering with Jo Malone London will enable Grow Wild to share its knowledge about growing and enjoying wildflowers across the UK, improving urban and unloved spaces and promoting health and wellbeing.
