Dear Ms. Roberts,

Re: Application for funding – Whitford Young Farmers Club

I am the current Chairman of Whitford Young Farmers Club and I am writing to you to request financial support for the club for it to run effectively in the future. The club is a friendly and welcoming group of about 30 members aged between 13 and 26 from both farming and non-farming backgrounds who reside in the broader Whitford area. We have once again had a very busy and successful year of socialising and competing. We meet once a week and do a range of different activities from tours of farms and local businesses and ice-skating to Easter egg decorating and pumpkin carving. Last year the club was very proud to have won best overall club in the whole of Clwyd and we are hoping for the same accolade again this year after winning the county rally at Llysfasi College in June and posting strong results in recent public speaking competitions, stock judging and field work.

I would be very grateful if you would consider donating funds to this vibrant and ambitious club. Together with my fellow officials we have been busy recently organising a tractor run and a treasure hunt and have raised about £850, but extra money would help to keep the club running well and give our members opportunities to do more. I believe it is an important social club for youngsters in the area, regardless of background, to socialise, meet new people and to learn and develop various skills through the activities that we do.

Yours sincerely,

E O Roberts

Edward Roberts,
Chairman – Whitford Young Farmers Club
